📍 Location Ahmedabad, India

Senior Full Stack Engineer with **8+ years of experience** designing and delivering **web platforms, ERP systems, e-commerce solutions, and real-time distributed applications**. Strong expertise in **Python, Django, FastAPI, JavaScript, and cloud-native deployments**. Experienced in **system architecture, API design, workflow automation, and performance optimization**. Proven ability to lead end-to-end product development and collaborate directly with stakeholders across domains, including **logistics, fintech, e-commerce, automation, and enterprise SaaS**.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL
- **Backend:** Django, FastAPI, Frappe Framework, REST APIs, WebSockets
- **Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, JavaScript, AJAX
- **Database:** MySQL, PostgreSQL, Redis, MongoDB
- **Infrastructure & DevOps:** AWS, Linux, Nginx, Git, CI/CD
- **Architecture:** Modular System Design, Real-time Systems, API Architecture
- **Automation:** n8n, Telegram Bot APIs, Notion API, Browser Automation
- **Others:** RabbitMQ, ERPNext, Cloud Deployments, Performance Optimization

WORK EXPERIENCE (8+ Years)

Senior Full Stack Engineer | Stack3Solutions | Aug-21 – Current | 4+ years

- Architected scalable backend systems using Python-based frameworks
- Built RESTful APIs, background job systems, and real-time components
- Delivered production-grade SaaS applications and enterprise platforms
- Work closely with clients to understand requirements, shape technical solutions, and take products from idea to production.
- Manage AWS infrastructure, deployments, and performance tuning to ensure stable, production-ready systems.

Senior Software Engineer | Maruti Techlabs Pvt. Ltd. | Dec-19 – Aug 21 | 1.5+ years

- Developed scalable backend systems with clean, maintainable architecture for enterprise clients
- Optimized application performance and reliability through code and database improvements
- Designed customized technical solutions aligned with complex business requirements
- Worked closely with stakeholders to deliver projects within deadlines

Senior Software Developer | FinByz Tech Pvt. Ltd. | Oct 17 – Dec 19 | 2+ years

- Designed and implemented industry-specific ERP solutions using Frappe Framework and ERPNext
- Led feature planning, module architecture, and AWS-based deployments for enterprise systems
- Contributed to ERPNext open-source enhancements including reporting, taxation modules (E-Way Bill), and performance improvements
- Actively contributed to open-source projects, including ERPNext and Frappe Framework.
- Recognized for meaningful open-source contributions during internship and full-time tenure. (GitHub: <https://github.com/finbyz>)
- Mentored junior developers and supported hiring

PROJECTS

1. RV Tires Shop | <https://rvtires.com/>

A multi-vendor e-commerce platform for vehicle tires supporting vendor inventory management, advanced product filtering, secure checkout, and scalable order workflows. Designed for performance, reliability, and production stability.

2. AI Surveillance System

A real-time video processing platform that ingests RTMP Drone feeds, or RTSP camera feeds, performs detection and tracking, and streams enriched video outputs with low latency using a distributed architecture.

3. JOYY | <https://joyy.co.in/>

A mobile app for a stress and well-being assessment platform featuring dynamic questionnaires, scoring engines, and analytics dashboards with secure user data handling.

4. ATLAS

A roadside assistance and towing case management system integrating third-party dispatch (Towbook), real-time tracking, and role-based workflow automation.

5. Bharat2Braille (Open-source) | <https://github.com/codespacetechlabs/Bharat2Braille>

An open-source platform converting Indian language text into Bharati Braille using rule-based language mapping and Unicode processing.

6. Endorse Live | <https://endorse.live/>

A B2B video testimonial platform enabling secure video collection, management, and publishing through scalable media and admin systems.

EDUCATION

- **Master of Computer Application (MCA)**
School of Computer Studies, Ahmedabad (2016 – 2018) | CGPA: 3.2 / 4
- **Bachelor of Computer Application (BCA)**
Shri Chimanbhai Patel Institute of Computer Application, Ahmedabad (2013 – 2016) | CGPA: 6.9 / 10
